

Macrostock 12V Power Supply
Instruction Manual

Specifications

Model: 702-00097-000

Input: 100-240V~ 50/60Hz

Output: 12VDC, 4.1A Max

Ta: 40°C

IP65

Safety Instructions

- Do not use the unit if the mains cable, plug, or housing are damaged.
- If the external flexible cable or plug of this transformer is damaged, it shall be replaced by the manufacturer or their service agent or a similar qualified person in order to avoid a hazard.
- Do not use the 12V connector leads if damaged. Contact Te Pari Products to purchase a replacement.
- Do not modify or disassemble the product or accessories.
- **WARNING** short circuit hazard: Never insert objects into connection sockets.
- **CAUTION** risk of injury from tripping: Make sure that cables are laid in a safe way to avoid tripping.
- This power supply is IP65 rated which means it is protected from total dust ingress and from **low pressure** water jets from any direction. Do not submerge in water.
- This power supply is rate for use in ambient temperatures not exceeding 40°C.

Instructions for use

1. Connect your devices to the power supply.
2. Plug the power supply into the mains socket.

It is recommended to use a Residual Current Device (RCD) to power this unit.

Always use an RCD when out of doors or in a damp or wet location.

Test the RCD each time it is plugged in and inspect the unit (and any cords) first for damage.

3. Disconnect power after use.

Storage and maintenance

- Store product in a cool and dry place.
- Use a dry and soft cloth for cleaning the product, do not expose it to cleaning agents or chemicals!

Liability

Te Pari Products is not liable for personal injury or property damage caused by incorrect installation, use or maintenance.
